INDEX

ABSTRACTS of papers presented at the Marine Biological Laboratory, 461.
Acridine dye, effect of on sea urchin development, 132.
Acrosomal lysin, effect of on Mytilus egg, 531.
Acrosome reaction, induction of by acridine orange, 473 (abstract).
Actin, G-ADP, polymerization of, 483 (abstract).
Actin, G-ATP and G-ADP, effects of KI on, 491 (abstract).
Activation of Arbacia egg by cysteine, 485 (abstract).
Adrenal of sea gull, electron microscopy of, 499 (abstract).
Aequipecten, influence of on behavior of commensal Pinnotheres, 388.
Aerobic respiration of oyster embryos, 71.
Age of Rana embryos, in relation to glycolysis, 555.
Alewife, serology of, 330.
Alga, phosphorus uptake by, 134.
Algae, use of in study of sea urchin nutrition, 105.
ALJURE, E., H. GAINER AND H. GRUNDFEST. Differentiation of synaptic and GABA inhibitory action in crab neuromuscular junctions, 479 (abstract).
Alloophorus, reproductive cycle of, 351.
Alosa, serology of, 330.
Amino acid and protein synthesis by sea urchin embryo, 465 (abstract).
Amino acid transport of human erythrocytes, 461 (abstract).
Amino acid uptake by Clymenella, 512 (abstract).
Amino acids, uptake of by Fungia, 648.
Amino acids and peptides in Arbacia eggs, 476 (abstract).
Amphibian development, anaerobic glycolysis in, 555.
Amphipod, oxygen consumption of, 225.
Analysis of initial reaction resulting in homologous splenomegaly in chick, 366.
Analysis of polarized light in eye of Daphnia, 233.
Anatomy of brachiopod, 597.
Anatomy of Calcinus larvae, 179.
Anatomy of Cardisoma, 207.
Anatomy of echiuroid proboscis, 80.
Anatomy of Lychas, 344.
Anatomy of sea urchin digestive system, 105.
Anatomy of triclad turbellarian gut, 571.
Androgenetic hybrids of California newts, karyoplasmic studies of, 253.
Annelid, development of, 412.
Annelid, reproduction of, 396.
Annelid eggs, cytological studies of, 424.
Annual testicular cycle of bobolink, 94.
Anomuran, larval development of, in laboratory, 179.
ANSELL, A. D. Observations on burrowing in the Veneridae (Eulamellibranchia), 521.
APPLEGATE, A., AND L. NELSON. Acetylcholinesterase in Mytilus spermatozoa, 475 (abstract).
Aquatic invertebrates, uptake of organic material by, 648.
Arbacia development, effect of proflavin on, 132.
ARGYRIS, T. S. *See* A. M. MUN, 366.
ARMITAGE, K. B. Temperature and oxygen consumption of Orchomonella, 225.
ARNOLD, J. M. Mating behavior and social structure in Loligo, 53.
Artemia cysts, glycerol in, 295.
Artemia populations, survival of in radioactive sea water, 302.
Assay of crustacean retinal pigment hormone, 317.
ASTERITA, H. *See* D. MARSLAND, 484 (abstract).
Atrina, influence of on behavior of commensal Pinnotheres, 388.
AUSTIN, C. R., AND J. PIATIGORSKY. Evidence against participation of a jelly-splitting agent in sperm penetration of Arbacia eggs, 470 (abstract).
AUSTIN, C. R. *See* R. L. BRINSTER, 471; S. D. EZELL, JR., 472; J. PIATIGORSKY, 473; D. H. SPOON, 474 (abstracts).
Australian gastropod, intertidal clustering of, 170.
Australian whales, body temperatures of, 154.
Autoradiography, preparation of fish lens epithelial whole-mounts for, 499 (abstract).
Axons of retinula cells, function of, 618.

BAK, I. J. *See* D. M. TRAVIS, 487; A. M. ELLIOTT, 495 (abstracts).
BALLENTINE, T. V. N. *See* A. K. PARPART, 485, 508 (abstracts).

COPELAND, E. Observations on the gas-secreting epithelium of Physalia, 493 (abstract).
Coral, uptake of glucose by, 648.
COUSINEAU, G. H. *See* P. R. GROSS, 497 (abstract).
Crab, commensal, influence of hosts on behavior of, 388.
Crab, land, biology of, 207.
Crab, larval development of, 179.
Crab, proprioceptor responses of, during molt cycle, 660.
CRANE, R. K. *See* L. LASTER, 502 (abstract).
Crassostrea embryos, respiration and enzymes of, 58, 71.
Crustacea, photomechanical responses of proximal pigment of, 121.
Crustacean, larval development of, in laboratory, 179.
Crustacean, proprioceptor responses of during molt cycle, 660.
Crustacean "cysts," glycerol in, 295.
Crustacean integument, structure and metabolism of, during molt cycle, 635.
Crustacean retinal pigment hormone and neurosecretion, 317.
Cycle, molt, of crab, proprioceptor responses during, 660.
Cycle, molt, of crustacean, structure and metabolism of integument during, 635.
Cycle, testicular, of bobolink, 94.
Cycles, reproductive, of three teleosts, 351.
Cyprinodont fishes, reproductive cycles of, 351.
"Cysts" of Artemia, glycerol in, 295.
Cytological studies of Pectinaria eggs, 424.
Cytology of Gecarcinus integument during molt cycle, 635.
Cytology of hybrid newts, 253.
Cytoplasm vs. nucleus in hybrid newts, 253.

DNA synthesis in early mitotic stages, pressure study of, 518 (abstract).
DNA synthesis in mature Arbacia eggs, 475 (abstract).

DAN, J. C. The vitelline coat of the Mytilus egg. I., 531.
Daphnia, analysis of polarized light in eye of, 233.
Daphnia, behavior of in polarized light, 243.
Dark, role of in phosphorus uptake of Phaeodactylum, 134.
Dark-adaptation in Crustacea, 121.
Darkness, effect of on mysids, 562.
Day-length, role of in photorefractoriness of bobolinks, 94.
Day-length in relation to Zugunruhe of bobolinks, 542.
Dehydrogenase system activity in Asterias gametes, 501 (abstract).
DELANNEY, L. E. *See* A. M. MUN, 366.
DEPHILLIPS, H. A., JR., AND K. E. VAN HOLDE. Spectral studies of hemocyanin, 481 (abstract).
Development, amphibian, anaerobic glycolysis in, 555.
Development of Artemia, disappearance of glycerol during, 295.
Development of Calcinus, 179.
Development of Glycera, 412.
Development of hybrid newts, 253.
Development of Lychas, 344.
Development of Mytilus egg, 531.
Development of sea urchin, effect of proflavin on, 132.
Development of splenomegaly in chick embryo, 366.
Development of teleost eggs after x-irradiation of sperm, 582.
Developmental patterns of enzymes in Limnaea, 463 (abstract).
Developmental stages of oyster, respiration and enzymes of, 58, 71.
DEWEL, W. C. *See* W. STONE, JR., 513 (abstract).
Diapause in Lychas, 344.
DIEHL, N. A. *See* A. L. BURNETT, 489 (abstracts).
Digestion of protein in planarians, 571.
Digestion in Strongylocentrotus, 105.
Digestion in triclad Turbellaria, 571.
Digging movements of molluscs, 521.
Discinisca, filter-feeding of, 597.
Distribution of brachiopod, 597.
Diurnal phototactic rhythm in Uca, 507 (abstract).
Dolichonyx, migratory restlessness in, 542.
Dolichonyx, testicular cycle in, 94.
DOOLITTLE, R. F., AND L. LORAND. Inhibitors of lobster blood clotting, 481 (abstract).
DOOLITTLE, R. F. *See* F. A. BELAMARICH, 479; D. C. BRYANT, 479 (abstracts).
opa oxidase systems of marine invertebrates, D 503 (abstract).
Dormant Artemia cysts, glycerol in, 295.
Dosinia, burrowing in, 521.
DOW, E. N. *See* J. B. MORRILL, 463 (abstract).
